## 👤 PROFILE

Junior Front-end Developer adept in all stages of web development. Equipped with a diverse and promising skill-set, bringing forth expertise in UX/UI, research, and testing, and able to effectively self-manage during independent projects and collaborate in a team setting, whether remote or in-person.

## 📁 RELEVANT EXPERIENCE

### App Designer and Developer at Self-employed

May 2022 — Present

- Designing and developing an iOS app geared toward people with ADHD, ASD, or any other developmental disorder that affects working memory.
- Tasks include concept ideation, conducting market and user research, designing the primary user flows, creating prototypes, and programming the app with Swift iOS language in XCode 13.

### Online Shop Owner at Self-employed

October 2021 — February 2022

- Building an online apparel shop involves continuous research, basic web design skills, an understanding of Shopify, supply chain knowledge, e-commerce strategies, digital marketing, and many other concepts.
- Some pre-launch phase tasks include: communicating with different suppliers and manufacturers, completing sample orders to conduct quality checks before final product decisions, and creating product and social media post artwork and concepts, among many more.

### UX/UI Designer and Researcher at Pair Design Project

January 2021 — March 2021

- In collaboration with a designer located in Brussels, we remotely designed a queue management system for certain businesses (e.g., supermarkets, doctor's offices, banks, etc.) and other cultural & leisurely activities (e.g., museums, movie theaters, etc.).
- The aim was to ease some anxiety and stress factors involved in these visits, specifically during the COVID-19 pandemic, and make a safer and more enjoyable overall experience.

## ⚙️ COURSES & WORKSHOPS
